

This match can make a real difference!

SAVING : INVESTING : PLANNING

Did you know that your employer will match a percentage of your 403(b) retirement plan contributions? Frankly, that's as close to free money as you are likely to see in a lifetime. But remember — **you have to contribute before your employer can match.**

- > Employer matching contributions
- > Automatic contributions by convenient payroll reduction
- > Pretax contribution can reduce your current income taxes
- > Tax-deferred growth until withdrawal
 - Income taxes must be paid at withdrawal and federal restrictions can apply to withdrawals prior to age 59½

So, if you're not participating in your workplace retirement plan, why not? After all, your lifestyle during retirement could very well depend on how much you save today.
